10 m

Our classic product, and definitely the most popular hall. It has infinite possible applications and ability to grow to meet your needs. If you want a durable or flexible warehouse, this hall can be recommended, not least since the side height is all of three metres, which is sufficient for most fork-lifts and loaders. You can erect the hall yourself, with the aid of our detailed description, but if you prefer, we can do it. Expect the job to take about one working day.
